
About PBN

PBN is an experienced global supplier of optical broadband products and technology solutions for HFC, RFoG, FTTx and EMS/OSS applications. We enable profitable and scalable transitions to IP Networks to meet consumers' multi-services expectations. PBN is well known globally for its innovation and expertise, offering advanced fibre optic products and solutions for applications demanding high bandwidth for transporting video, VoIP and high-speed data. Today our products are being installed to deliver comprehensive broadband access solutions to over 30 million subscribers, served by hundreds of headend facilities worldwide.

PBN simplifies the operator's transition to IP Networks by providing interoperable, IP-based solutions that help put consumers in control. PBN's products and solutions for high-integrity infrastructures enable operators to build or upgrade their network to meet today's requirements. PBN's innovative EMS and OSS solutions will make it easy to control services offered via the network, maintaining the highest level of quality. PBN's global expertise facilitates network operators' ongoing efforts to support a seamless transition to a connected world.

PBN's offices are located in China, Europe, Australia and the Americas. Local presence by a large number of channel partners extends PBN's regional business and service support. For more information about the Company, the people, the products and solutions, please visit www.pbnglobal.com.

About Hemmink

Since 1951, Hemmink supplies high-quality infrastructure products and solutions to operators and contractors. We represent a number of quality brands in the Netherlands and are strategic partners for various world brands. A team of enthusiastic professionals works daily on providing solutions to meet the demands of operators. We offer concepts and solutions for cable television networks, FTTX networks and IP. In addition, Hemmink delivers products and services to specialised companies that serve clientele in the recreation, health care and business telecommunication sectors.

Hemmink is one of the top 3 suppliers in the Netherlands considering quality, price, expertise and logistics. On top of that we deliver a complete package of products and services. Apart from high-quality products we also give thorough advice, well thought-out technical concepts and ready-made solutions.
