Status: For immediate release

PBN will feature innovative solutions for Network Operators at ANGA Cable 2010

Melbourne, Australia, 16 April 2010 - PBN is exhibiting at ANGA Cable, a leading international trade fair for cable, broadband and satellite. The event is being held at the Fair Grounds in Cologne, Germany for the period of 4-6 May, 2010.

PBN understands the constant demands placed on Cable Operators today. Accessibility to faster services will continue to increase and drive the demand for more bandwidth. For over 15 years PBN has focused on helping Network Operators to serve their customers better. With reliability and quality of service in mind, the company has developed a number of innovative and cost effective solutions that enable Network Operators to leverage their existing cable infrastructure while they gradually migrate to fibre to the home (FTTH) deployments.

You are invited to visit PBN's booth to see some of the solutions available. While you are taking a tour, you can expect to see a display of key products. PBN's experienced representatives look forward to welcoming you.

- Traditional HFC
- Deep Fibre HFC
- RFoG DOCSIS over PON
- FTTH GEPON and Active Ethernet
- Network Management Software

Register for your chance to win. While you are visiting the PBN team at booth B54, don't forget to register for your chance to win a GPS. By simply leaving your business card with one of our Representatives, you'll be entered into the draw automatically.

Receive a complimentary online voucher. For a complimentary online voucher so that you can register for a 3-day exhibition ticket, do not hesitate to email PBN's marketing department marketing@pbn.com.au before the 30 April 2010.
