PBN to exhibit at ANGA Cable 2009

Melbourne, Australia, 24 April 2009 - PBN will exhibit at ANGA Cable, a leading trade fair for Cable, Broadband and Satellite. The show is being held at the Cologne Fair Grounds in Germany between 26-28 May 2009. PBN can be located in Hall 10.2 at stand A48.

PBN is launching its new corporate look to the European market at ANGA Cable. After many months of development and preparations, the fresh and modern logo, together with the new corporate brand, will be fully visible on PBN's stand. This is a very exciting time and PBN is looking forward to sharing its hard work and excitement with you.

When it comes to upgrading or building fibre optic networks, PBN offers an extensive line of high-quality products to choose from. Each product is specifically developed to support the progressive communications market in broadband technologies and services. PBN's next-generation broadband access solutions bridge the gap between existing and emerging technologies. PBN makes it easy for Network Operators to grow their portfolio of services by addressing the changing needs of their customers. PBN solutions are designed to increase the earning capabilities of Network Operators by delivering value-added services to the end-user.

Featured products at PBN's stand include:

- **Hybrid Fibre Coaxial (HFC)** - Who says cable is dead? See the latest optical distribution nodes with integrated status monitoring and the very popular modular headend equipment.
- **Fibre to the Home (FTTH)** - Dual fibre or one fibre? Point-to-point or point-to-multi-point? To the home, business or customer premises? See the PBN range of ONUs and OLTs for the most demanding network applications.
- **RF over Glass (RFoG)** - Run DOCSIS cable modems with RF over a FTTH ready passive optical network (PON) right to the home.
- **Network Management Software** - A comprehensive network management suite to suit HFC networks, as well as fully automated provisioning in FTTH networks.

Come and visit booth A48 and talk to a Representative to learn more about PBN's innovative broadband access products and solutions. For further details about ANGA Cable visit www.angacable.com.

About PBN

PBN is a leading supplier of broadband access products and solutions. PBN is well-known globally for its innovation and expertise in offering advanced fibre optic products and solutions for applications demanding high bandwidth for transporting video, voice and data traffic. PBN provides comprehensive broadband distribution and access solutions to tens of millions of subscribers served by hundreds of headend facilities worldwide. PBN's headend equipment, network management and access products are suitable for HFC, FTTH, RFoG, Ethernet and DOCSIS applications. PBN uniquely offers its customers One Platform, One Solution!

PBN has a state-of-the-art research and development facility in Melbourne (Australia) and also now in Beijing (China). PBN's offices are in Australia, China, Europe and the Americas. PBN is also well represented by channel partners globally. For more information about the company, the people, the products and the solutions, please visit www.pbnglobal.com.
